

## Simple to use - long lasting

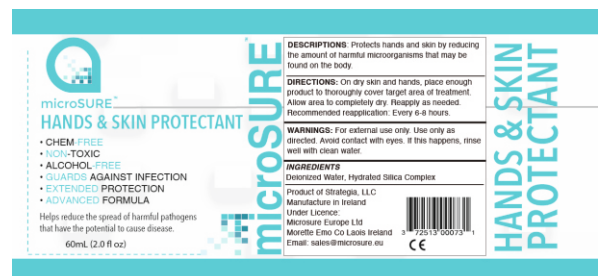

1. Wash and dry hands in accordance with local guidelines.
2. Apply enough HP spray to ensuring good coverage.
3. Rub hands together and allow HSP to air dry.

Your hands and skin are now protected by microSURE HSP against a huge host of harmful pathogens including SARS-Co-V2. Our revolutionary new formula is completely free from harmful chemicals, free from alcohol, free from fragrance and is also non-toxic. Plus it provides proven ongoing bio protection for 6 to 8 hours. To extend protection simply re apply as needed.
